Dear Bruno

I am writing on behalf of the President and Committee to express our sincere thanks for the assistance you have once again shown towards the show with allowing us to use some of your equipment.

We would like to say a special thankyou for the use of the forklift to move the containers at Ronez as this has made moving them so much easier.

We are very grateful for your support which helps us enormously. This kind of assistance is very important to the Society as the cost of mounting the event is substantial and would be impossible for a Society such as ours to put on without the kindness of companies such as yours.

Yours sincerely

Claire Brehaut
Show Secretary
